Vision Statement

Every child has access to quality child care and education in an environment that is safe and nurtures their maximum development.

Mission Statement

To protect and promote the health, safety, and mental development of children cared for in children’s centers and family child care homes in Pinellas County.

Organizational Background and Governance Structure

The Pinellas County License Board (PCLB) was established in the early 1950’s through the efforts of local citizens who recognized the need for quality child care as more parents began working outside of the home. There were no official standards for caring for children and no license or permit was required at that time. Out of concern for children and because of efforts by leaders of the Pinellas County Juvenile Welfare Board, the Florida Legislature approved the Pinellas License Board Act in 1951, which created a three member Board that had the power to issue permits for providing child care and to investigate complaints of substandard child care.

Membership on the early Board was comprised of the Superintendent of Schools, the Director of the Pinellas County Health Department, and the Director of the Pinellas County Juvenile Welfare Board. Over the years, the PCLB has grown to having a staff of seventeen professionals, who are employed at the Child Care Licensing Program, which is a program within the Florida Department of Health in Pinellas County. The PCLB continues to promulgate rules and set policy for child care licensing in Pinellas that either equals or exceeds all State requirements.

The Board continues to have specific designation for membership: Pinellas County Commissioner; Pinellas County Schools Administrator; representative from the Florida Department of Children and Families; representative from the Juvenile Welfare Board of Pinellas, a County Health Officer, an ex-officio member of the Florida Department of Health in Pinellas County; and two members in good standing from Pinellas County preschool associations. The Board also has an Advisory Committee consisting of experts in the field of early learning and child care providers.

Regulatory Oversight

The statutory reference for the PCLB is Chapter 61-2681, amended by Chapters 70-893 and 2007-277. The PCLB has approved various regulations over the years to help ensure that every child in day care in Pinellas is safely cared for and that they have maximum ability to reach their own full potential. The State of Florida’s Department of
Children and Families has adopted several of the Pinellas County standards and included them in State Regulations over the years as they represented best practices and ensured child safety and well-being. Pinellas is one of only five counties that regulate child care on a local basis, in addition to state regulations.

Laws/Regulations governing child care licensing in Pinellas County:

Florida Statute 402.26-319 addresses child care in homes and centers.

Florida Administrative Codes Chapter 65C-22 addresses child care in centers.

Florida Administrative Codes Chapter 65C-20 addresses child care in homes.

Special Act for Pinellas County Chapter 61-2681, amended by Chapters 70-893 and 2007-277, Laws of Florida which established and governs the Pinellas County License Board (an independent special district)
