g. Exemptions From Disqualification

Unless otherwise provided by law, the provisions of this section shall apply to exemptions from disqualification for disqualifying offenses revealed pursuant to background screenings required by these regulations regardless of whether those disqualifying offenses are listed specifically in these regulations or other laws.

(1) The Department of Children and Family Services may grant to any employee otherwise disqualified from employment an exemption from disqualification for:

- (a) Felonies for which at least 3 years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or sanction for the disqualifying felony;
- (b) Misdemeanors prohibited under any of the statutes cited in this chapter or under similar statutes of other jurisdictions for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or sanction;
- (c) Offenses that were felonies when committed, but are now misdemeanors, and for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or sanction; or;
- (d) Findings of delinquency. For offenses that would be felonies if committed by an adult and the record has not been sealed or expunged, the exemption may not be granted until at least 3 years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or sanction for the disqualifying offense.

435.07

- (2) The term "felonies" means both felonies prohibited under any of the statutes cited in these regulations or under similar statutes of other jurisdiction.
- (3) In order to grant an exemption to any employee, the employee must demonstrate by clear and convincing evidence that the employee should not be disqualified from employment. Employees seeking an

exemption have the burden of setting forth clear and convincing evidence of rehabilitation, including, but not limited to, the circumstances surrounding the criminal incident for which an exemption is sought, the time period that has elapsed since the incident, the nature of the harm caused to the victim, and the history of the employee since the incident, or any other evidence or circumstances indicating that the employee will not present a danger if employment or continued employment is allowed. The decision of the Department of Children and Family Services regarding an exemption may be contested through the hearing procedures set forth in chapter 120. The standard of review by the administrative law judge is whether the Department of Children and Family Services' intended action is an abuse of discretion.

Ch. 435.07(4)(b)

- (4) Disqualification from employment pursuant to these regulations may not be removed from, nor may an exemption be granted to, any person who is a:

3. The child care facility must not be used for any business or purpose unrelated to providing child care that can interfere with compliance with child care standards or permit the unsupervised presence of individuals who do not meet screening and training requirements (with the exception of parents or legal guardians of children in care) when children are present. A child care facility that utilizes any area that is subject to use by persons outside the program must have exclusive control of such area when used by the program and provide effective measures to exclude individuals who do not meet screening and training requirements from that area.

5/3/95

D. Temporary permit

1. A temporary permit will be issued by staff to a children's center or family day care home license applicant when requirements appear to be met. The license application shall be presented to the Board and the Board shall make such

orders as it deems appropriate. This provision authorizes a temporary permit to be signed by the chairman or two (2) Board members. The temporary permit may continue until it is presented to the Board. The Board shall make such orders as it deems appropriate.

Ch 61 S.11.(2)

2. The chairman of the Board, or in his absence two (2) members of the Board, may grant a temporary permit if it appears that the applicant has fulfilled all requirements for the granting of a license. E. Annual renewal of license

Ch 61 S.12.

1. Any owner or operator of a children's center licensed under Licensing Regulations shall make application for renewal of his/her license on forms to be furnished by the License Board.

5/14/09

- a. Approximately 90 days prior to the expiration of a license, the licensing program shall provide renewal application and forms to the owner or operator addressing all licensing renewal requirements including background screening.

Ch 65C-22.001(1)(d)

- b. At least forty-five (45) days prior to the expiration date of the current license, the provider must submit to the licensing program a completed renewal application including all required forms and background screening information to ensure that a lapse of licensure does not occur. Failure to submit a complete renewal application at least 45 days prior to the expiration date of the current license constitutes a licensing violation as defined in paragraph 65C-22.10(2)(c)F.A.C.

CC Facility Handbook 2.1 A.

SA Facility Handbook 2.1C

2. All fines imposed through the administrative process or an administrative hearing against an applicant must be paid before a license can be issued. If, at the time of a renewal application, there is a pending administrative hearing resulting only from a proposed fine, it shall not affect the renewal of the license. If, at the time of a license renewal application, there is pending revocation proceeding a satisfactory inspection is required and the issuance of a license is dependent upon the final order.

CC Facility Handbook 2.1 B.

3. In such case, the provider will not be issued a renewal license until the final order is entered and any fine imposed has been paid. If the provider has filed a timely and complete application for the renewal of a license, the provider will be able to continue to operate as long as provisions are in place to ensure the continued health and safety of the children during the application determination and any subsequent administrative hearing. This provision does not limit the PCLB's authority to issue an emergency suspension order.

SA Facility Handbook 2.1D

The provider will not be issued a new license until the final order is entered. During the application determination, the provider will be able to continue to operate as long as provisions are in place to ensure the continued health and safety of the children in care. This option may be reversed if the provider continues to violate standards and there is a court-ordered injunction to cease operation until the final order is issued.

Ch 402.308(4)(b)

4. Prior to the renewal of a license, the License Board shall reexamine the children's center, including in that process the examination of the premises and records of the children's center as required in Licensing Regulations to determine that minimum standards for licensing continue to be met.

Ch 402.308(4)(c)

5. The License Board shall coordinate all inspections of children's centers. A children's center is not required to implement a recommendation of one agency that is in conflict with a recommendation of another agency if such conflict arises due to uncoordinated inspections. Any conflict in recommendations shall be resolved by the county commission or its representative within fifteen (15) days after written notice that

such conflict exists.

Ch 402.308(4)(d)

6. The License Board shall issue a license or renew a license upon being satisfied that all standards required by Licensing Regulations have been met. A license may be issued or renewed if all the screening materials have been timely submitted; however, the License Board shall not issue or renew a license if any of the child care personnel at the applicant children's center have failed the screening required by Licensing Regulations I.A.

F. License Change
