

***WELCOME TO THE PINELLAS
COUNTY OPIOID TASK FORCE
MEETING WEBINAR***

WE WILL BEGIN SHORTLY.

AGENDA	
Welcome	Marianne Dean, MS
Opening Statement	Dianne Clarke, PhD
Trends in Transports	Chris Jordan, BSBA, NRP; Pinellas County EMS & Fire Administration
Pedestrian & Cyclist Trends	Gina Harvey, Pinellas County Public Works
EIS Update	Mohammad Alak, MPH; DOH
Overdose Data to Action	Marianne Dean, MS; DOH
COSSUP / FR-CARA / Other Human Service Programs	Joshua Barnett, PhD, MHS, MA; PCHS
Naloxone Modeling Update	Wouter Vermeer, PhD; Northwestern University
Syringe Service Program Update	Amanda Bonham-Lovett, MPH, LMSW; IDEA Exchange Pinellas
Open Forum	All Participants
Next Meeting: June 15, 2023	

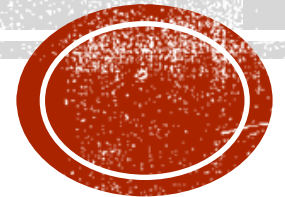

Welcome!

MARIANNE DEAN, MS
FACILITATOR
PINELLAS COUNTY OPIOID TASK FORCE

Opening Statement

DIANNE CLARKE, PHD
CO-CHAIR
PINELLAS COUNTY OPIOID TASK FORCE

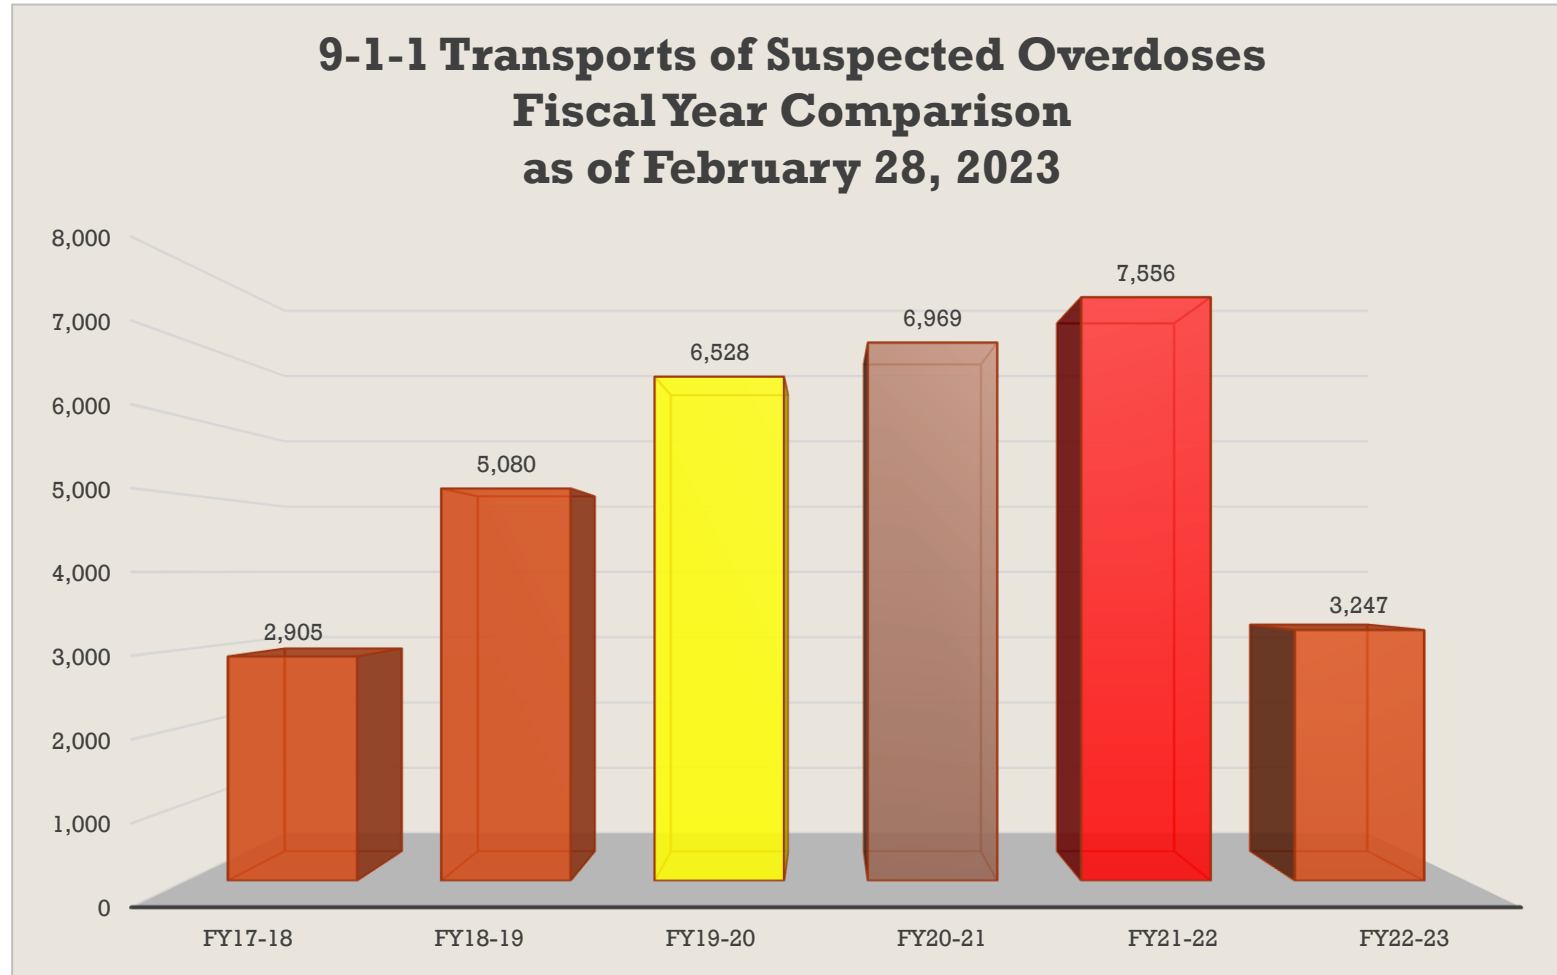

COMPILED DATA

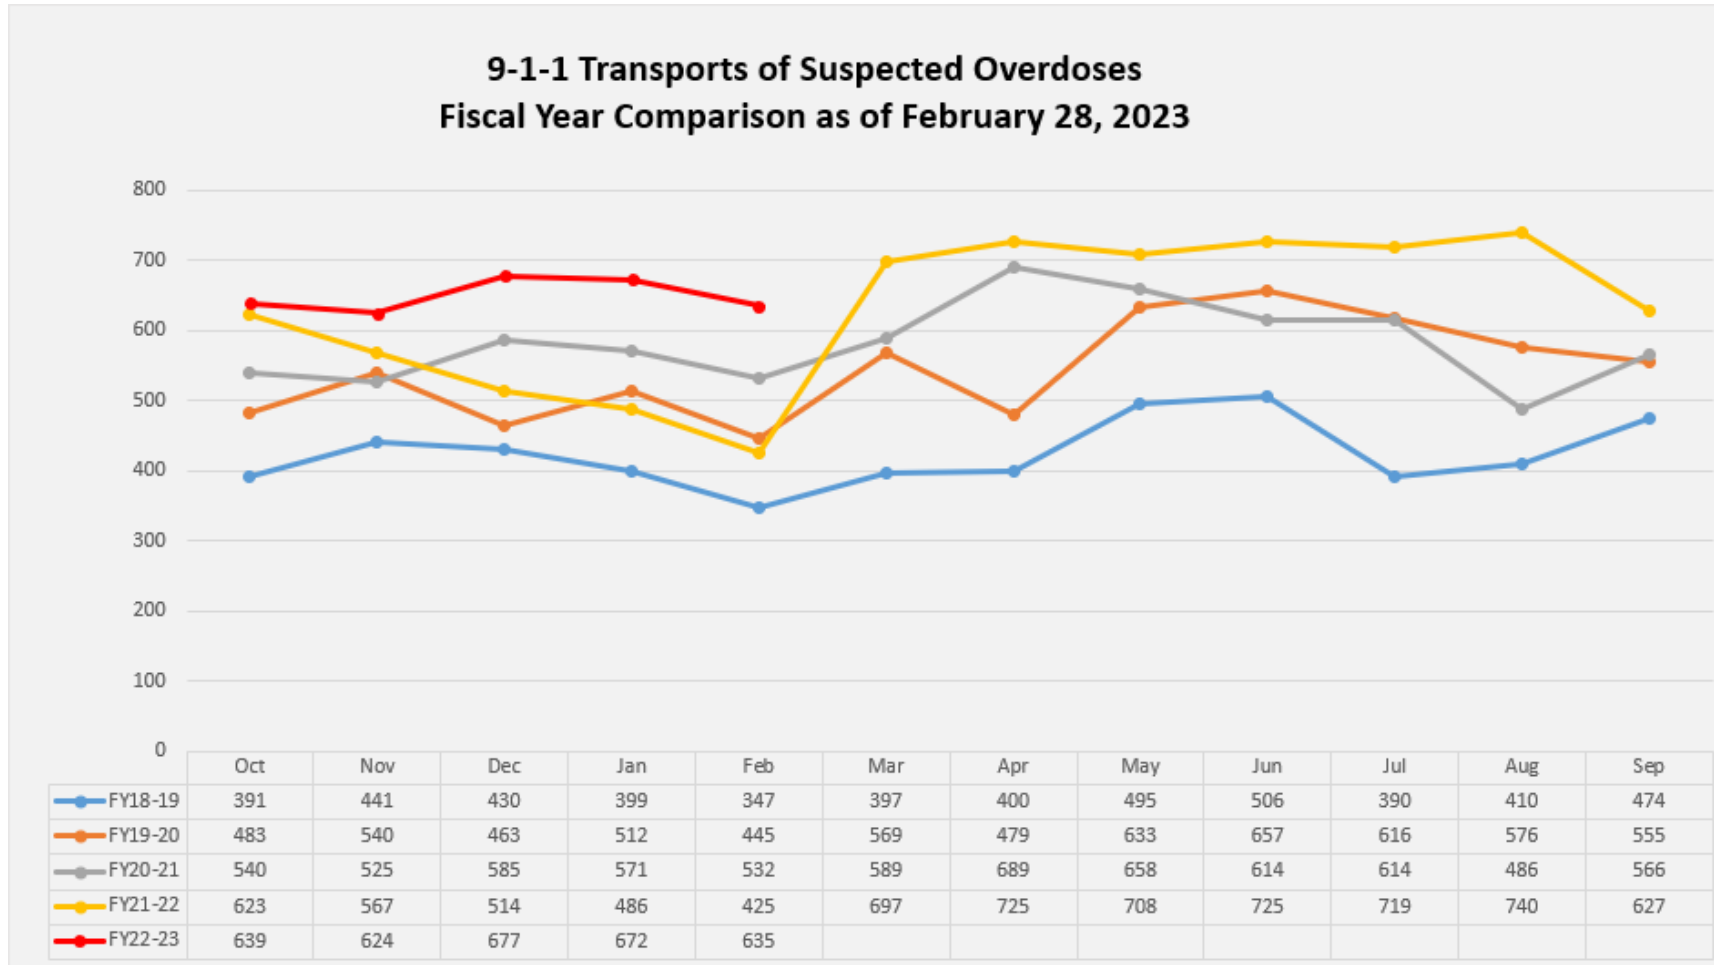

Pinellas County EMS & Fire Administration

Chris Jordan, EMS Quality Assurance Coordinator

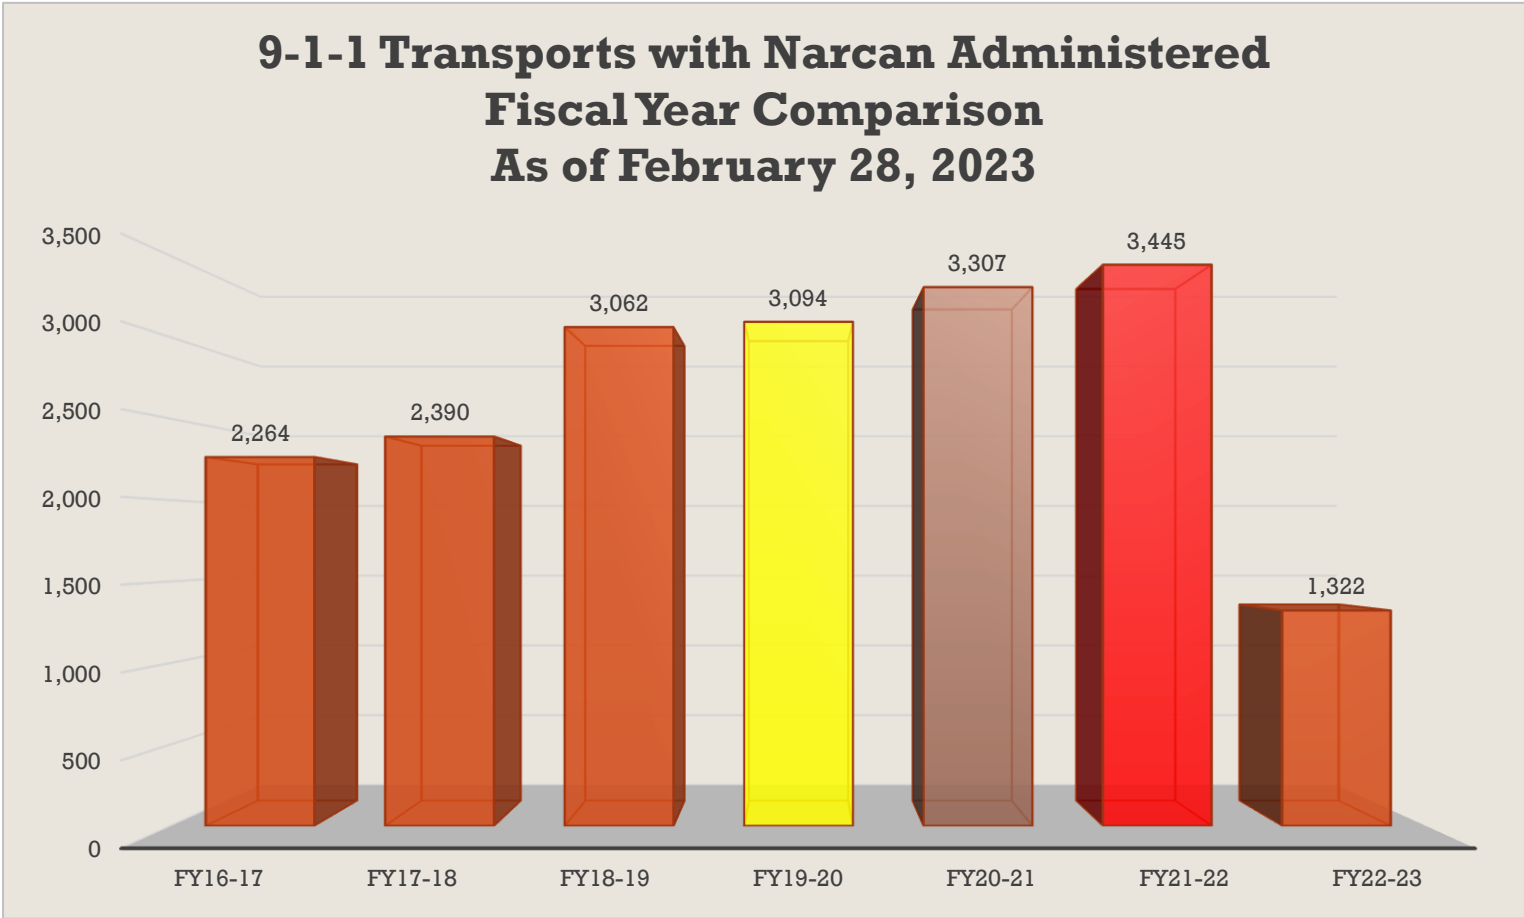

Suspected Overdoses, all types:

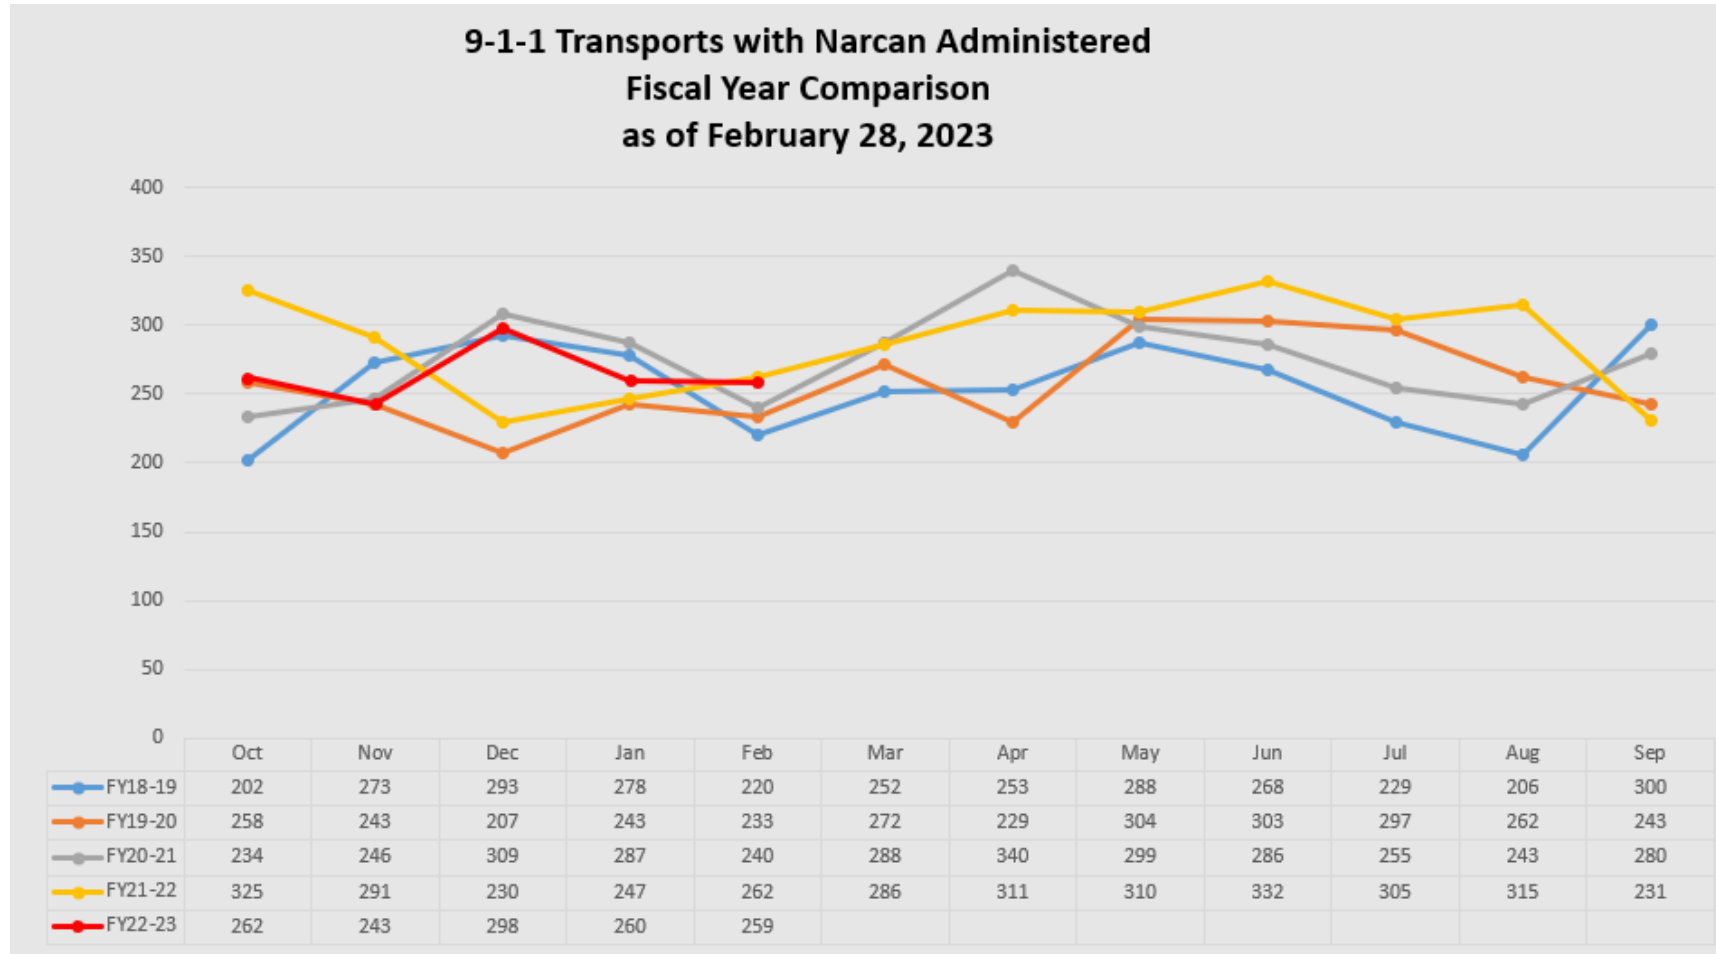

Suspected Overdoses, all types:

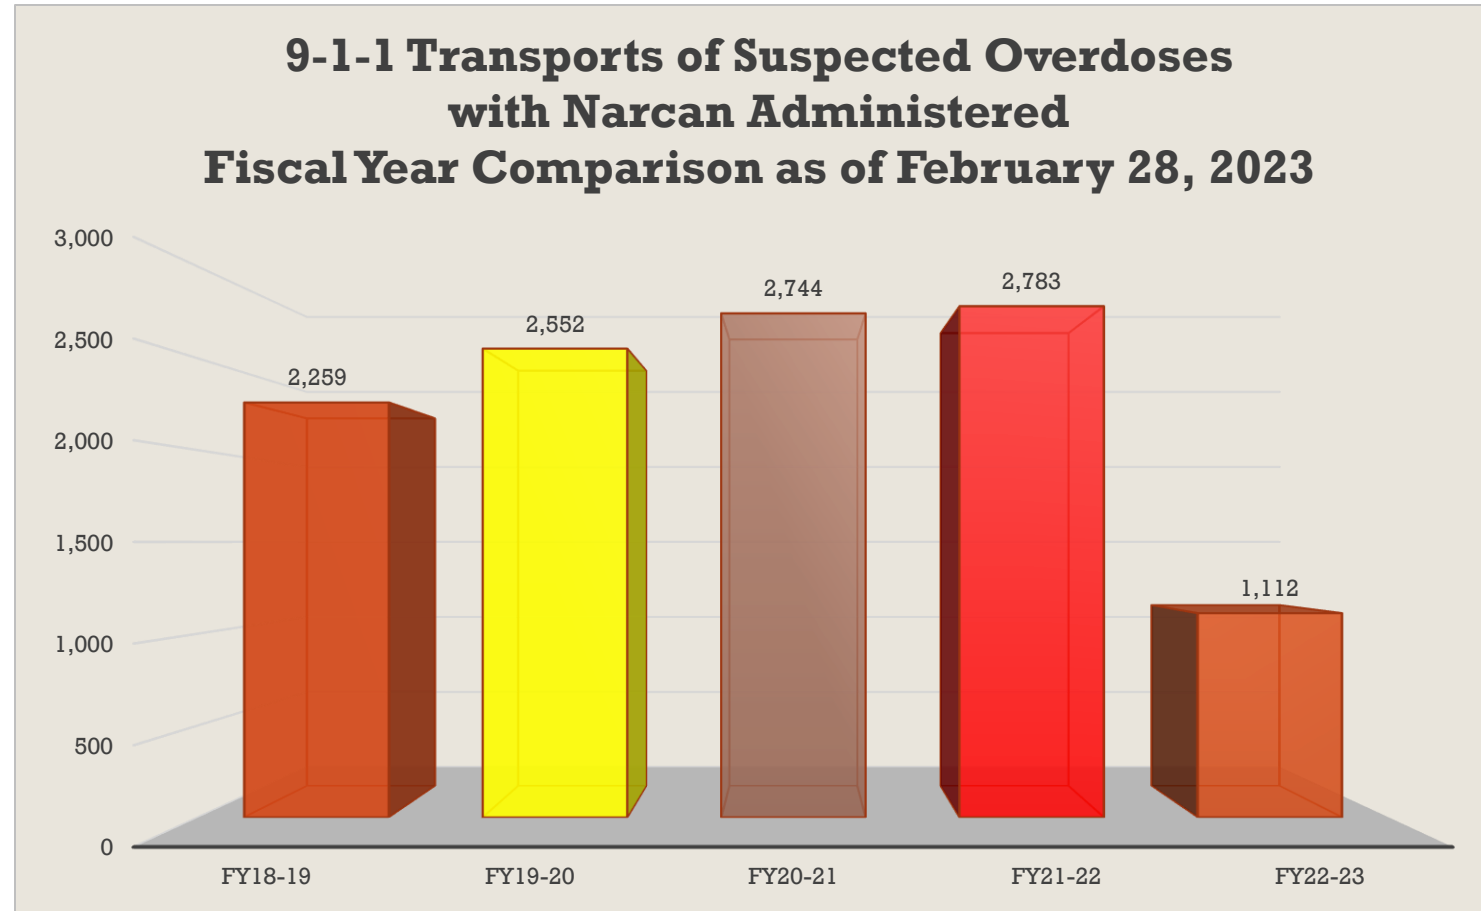

Narcan administered:

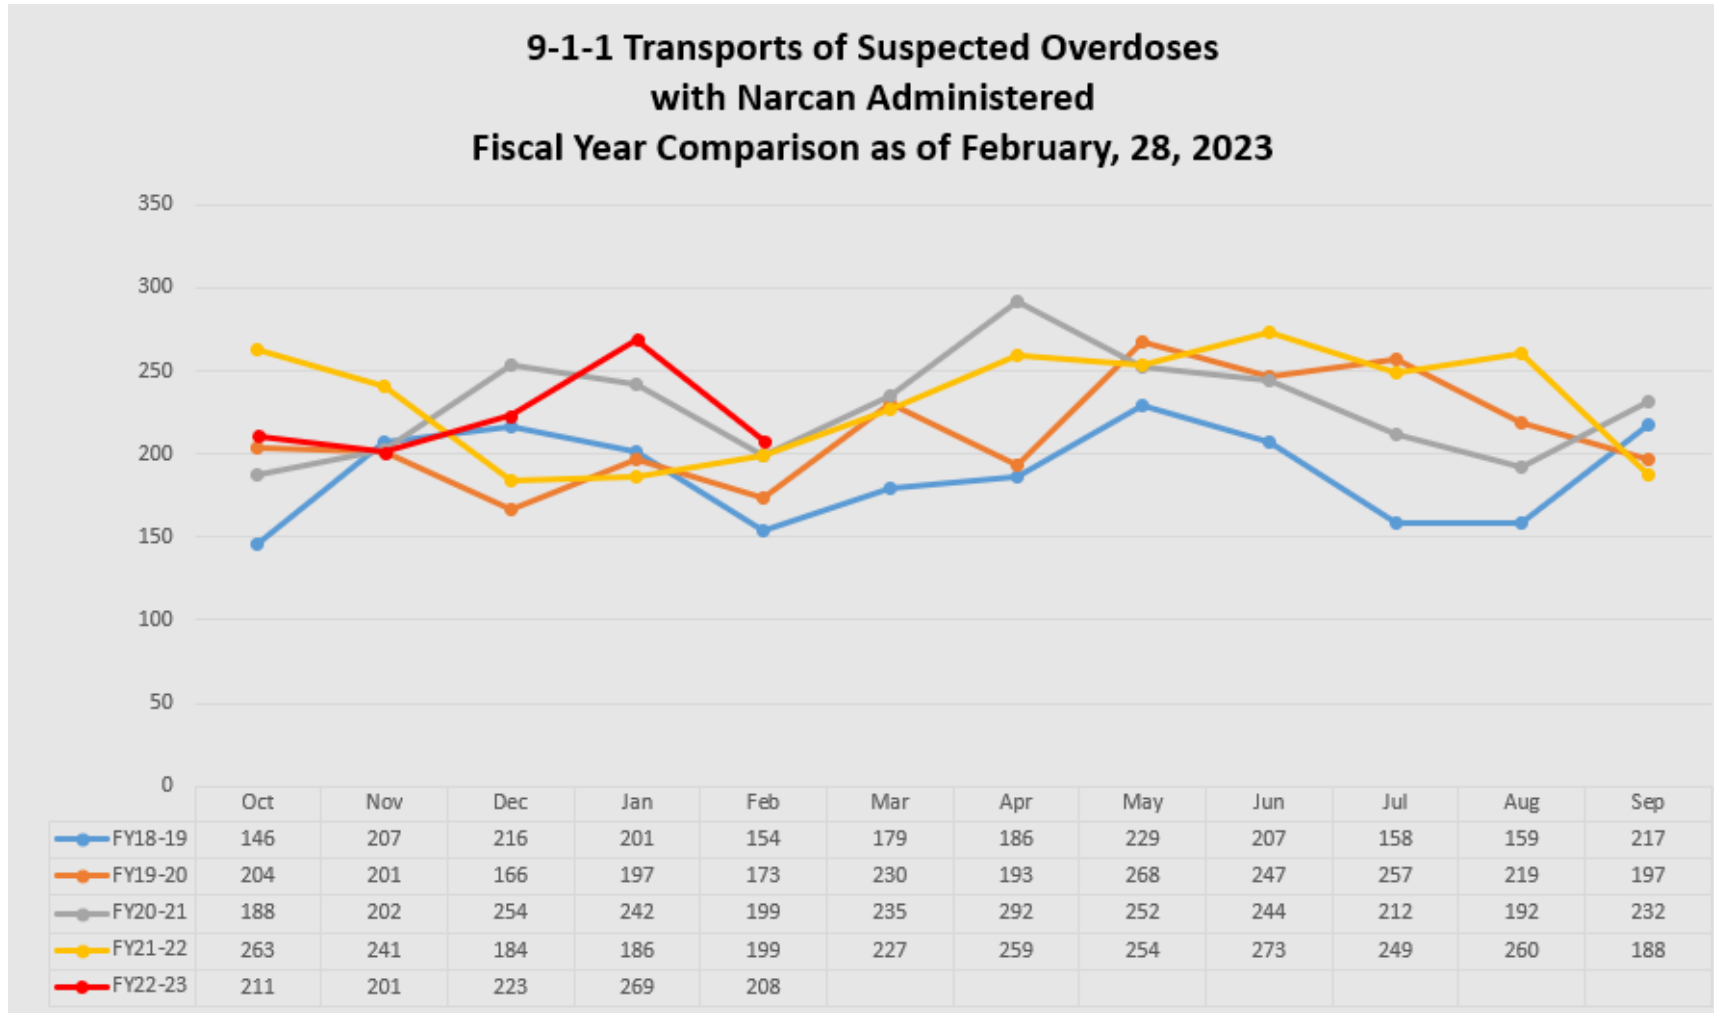

Narcan administered:

Suspected OD with Narcan administered:

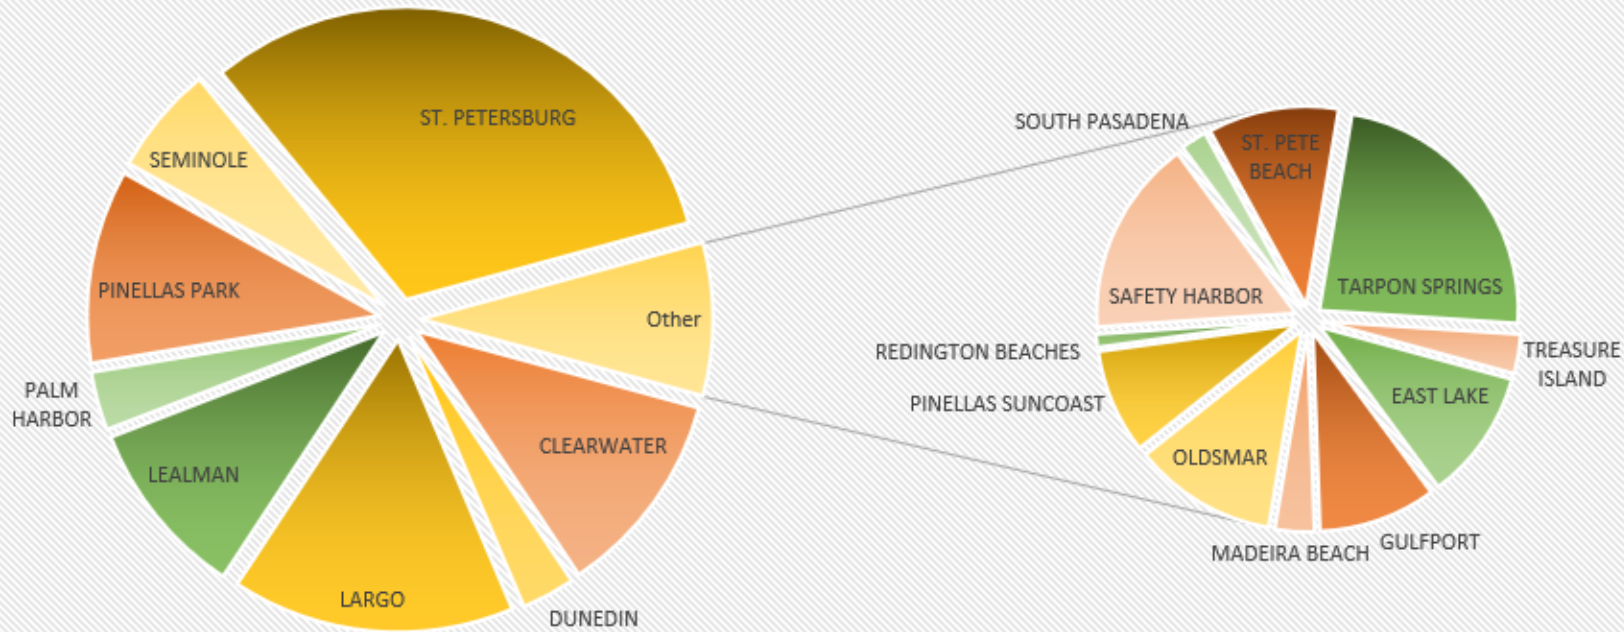

Suspected OD with Narcan administered:

Where are transports coming from (FY22/23)?

9-1-1 Transports of Suspected Overdoses
with Narcan Administered for FY22-23
as of February 28, 2023

LEAVE BEHIND NARCAN PROGRAM UPDATE:

- **Clinician training was completed in PCEMS December CME with the program now active**

Questions?

GINA HARVEY

Pinellas County Public Works

Our Challenge

Reduce pedestrian and bicycle crashes related to opioid and other addiction beyond the realm of transportation engineering

2021 Pedestrian and Bicycle Crashes

- Over 1,200 crashes
- 88 were fatalities
- 74% of these deaths within 500 feet of a crosswalk
- 67% of deaths showed drugs and/or alcohol impairment

Steps to Reduce Crashes related to opioid and other addiction

- Educational marketing
- Transportation assistance
- Infrastructure to create and direct to safe crossings
- Increase visibility with streetlighting

Florida HEALTH

Overdose Surveillance Update

Mohammad Alak, MPH

EIS Fellow

Florida Department of Health in
Pinellas County

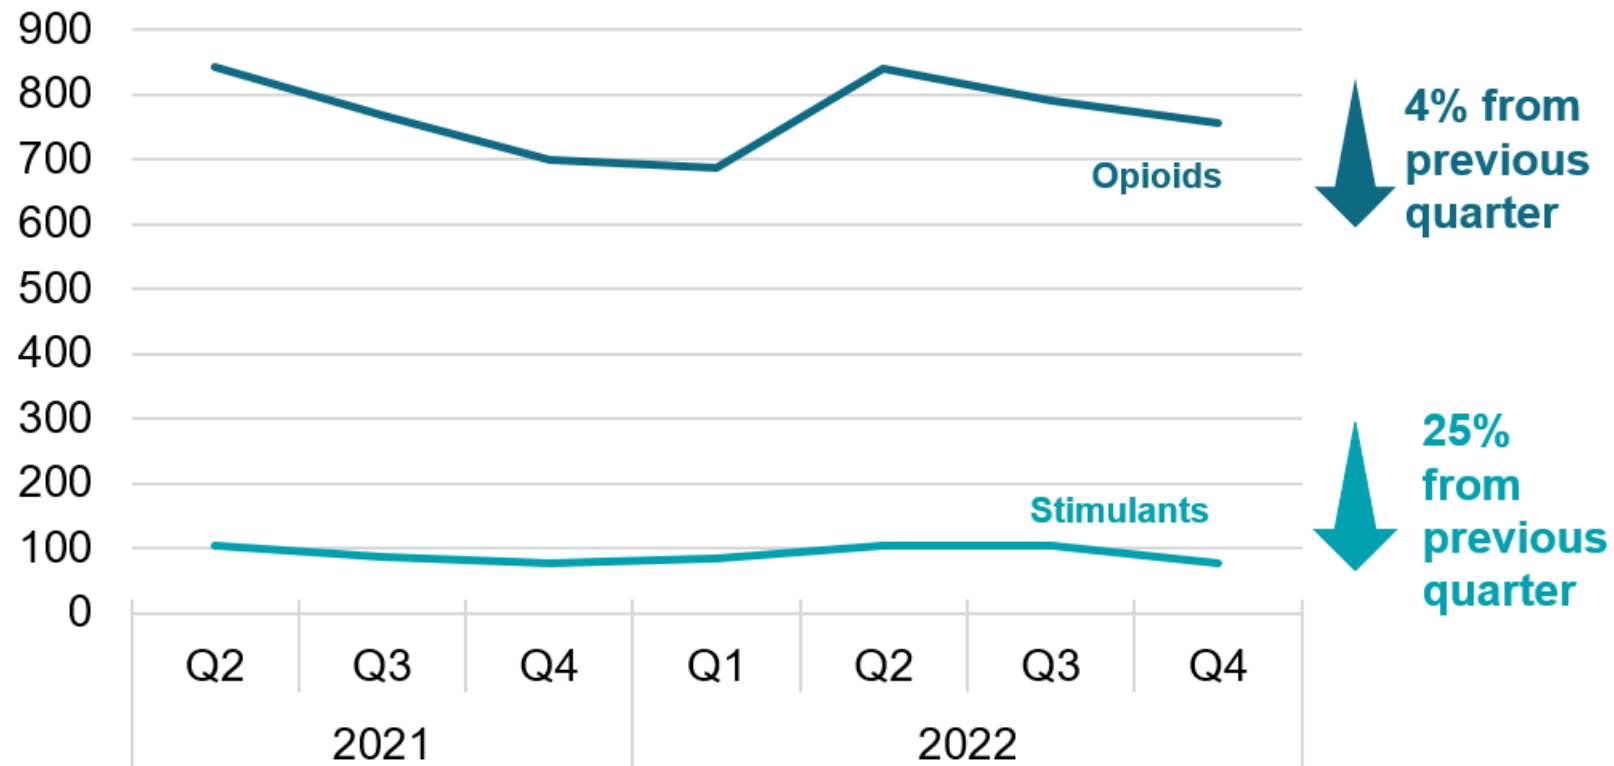

Pinellas County Quarterly Overdose Report

Quarter 4, 2022

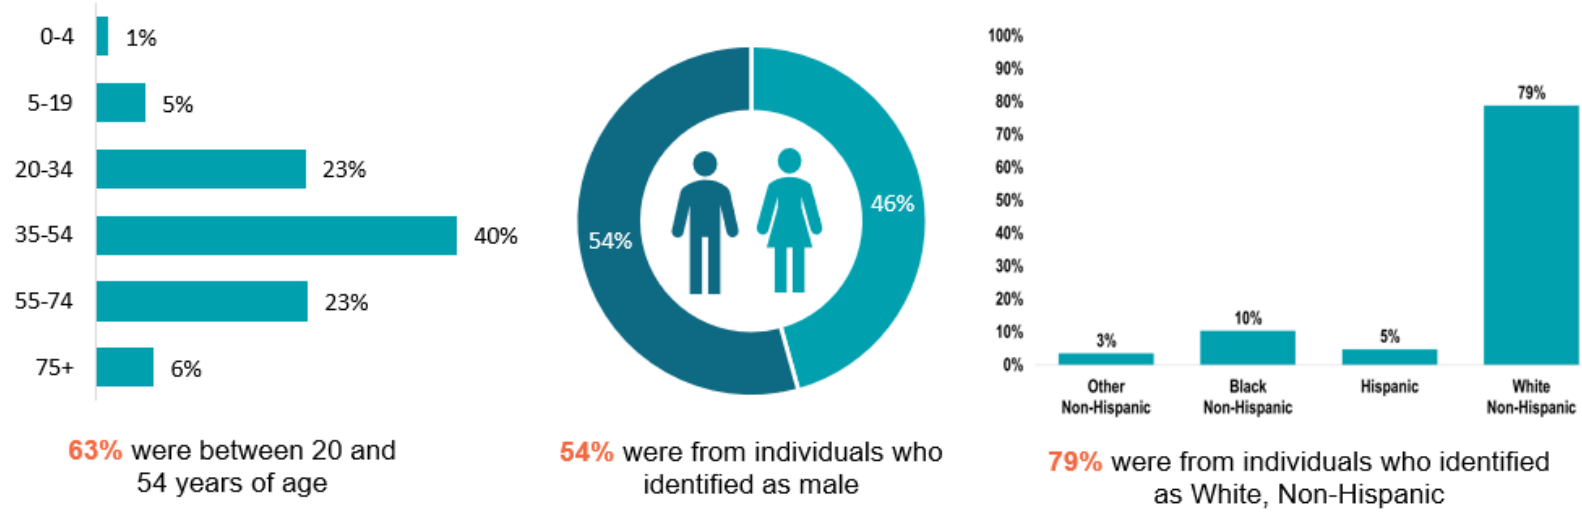

Overdose surveillance helps to maintain situational awareness, respond to trends rapidly and inform prevention and treatment activities. *

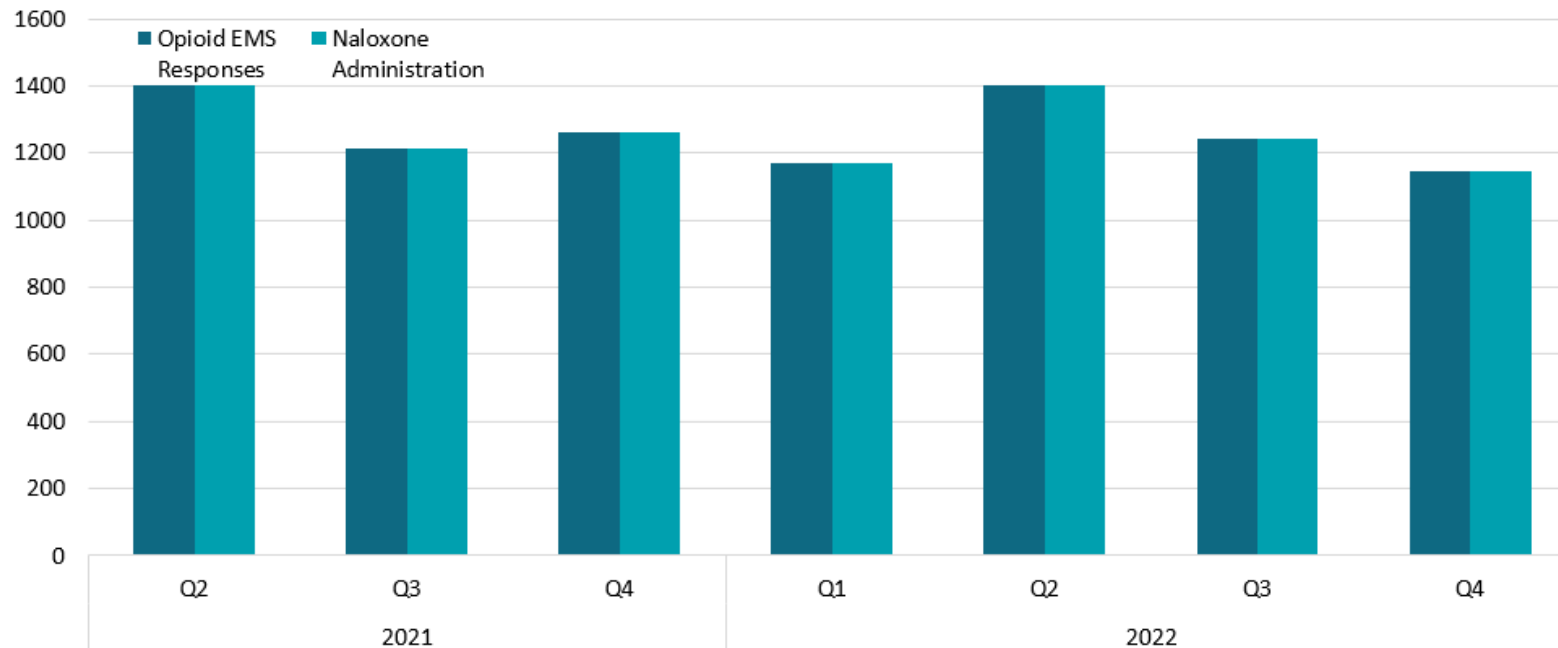

Emergency Department (ED) Visits for Suspected Overdose by Quarter¹

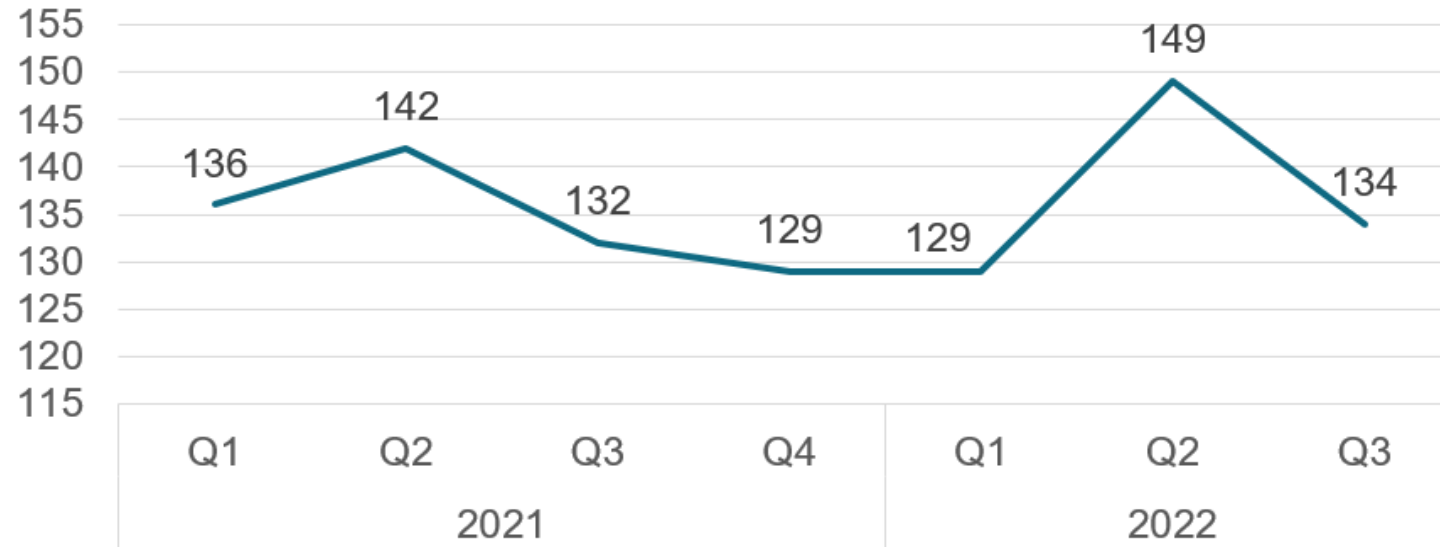

Q4 2022 Suspected All Drug Overdose ED Visits Demographics²

Overdose-Related Emergency Medical Services (EMS) Responses³

Overdose-Related Fatalities⁴

- * In January 2023, ESSENCE-FL implemented changes to how emergency department visit data for suspected opioid and stimulant overdoses are categorized. As a result, fewer visits are counted as overdoses, and the new numbers should better represent actual overdoses treated in Florida emergency departments. The data found in reports produced after January 2023 will not match previous reports produced prior to December 31, 2022.
1. The information from the graph above was retrieved from Florida's syndromic surveillance system, the Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL). The information in the graph displays opioid- and stimulant-involved ED visits at Pinellas County facilities. It is important to note that some visits may not be directly related to opioid or stimulant overdoses at time of visit. Individuals who have a history of opioid or stimulant dependence encountered at the ED may also be included in the numbers above. Additionally, ED data are provisional and may change as new information is received.
 2. Graphs display the demographics of all drug-involved ED visits at Pinellas County facilities retrieved from ESSENCE-FL. Within the race/ethnicity chart: Other, Non-Hispanic includes those who reported their race as American Indian/Alaska Native, Asian, Multiracial, Native Hawaiian or Other Pacific Islander or Other; Hispanic includes all races who reported their ethnicity as Hispanic; those who reported their race and/or ethnicity as Unknown are not shown.
 3. Graph displays data retrieved from Biospatial and shows EMS response calls for suspected opioid overdoses and naloxone administrations.
 4. Graph displays data captured from death records retrieved from ESSENCE-FL and shows drug and biological substance poisoning deaths (X40-44, X60-64 and Y10-14).

Questions/Comments?

Florida HEALTH

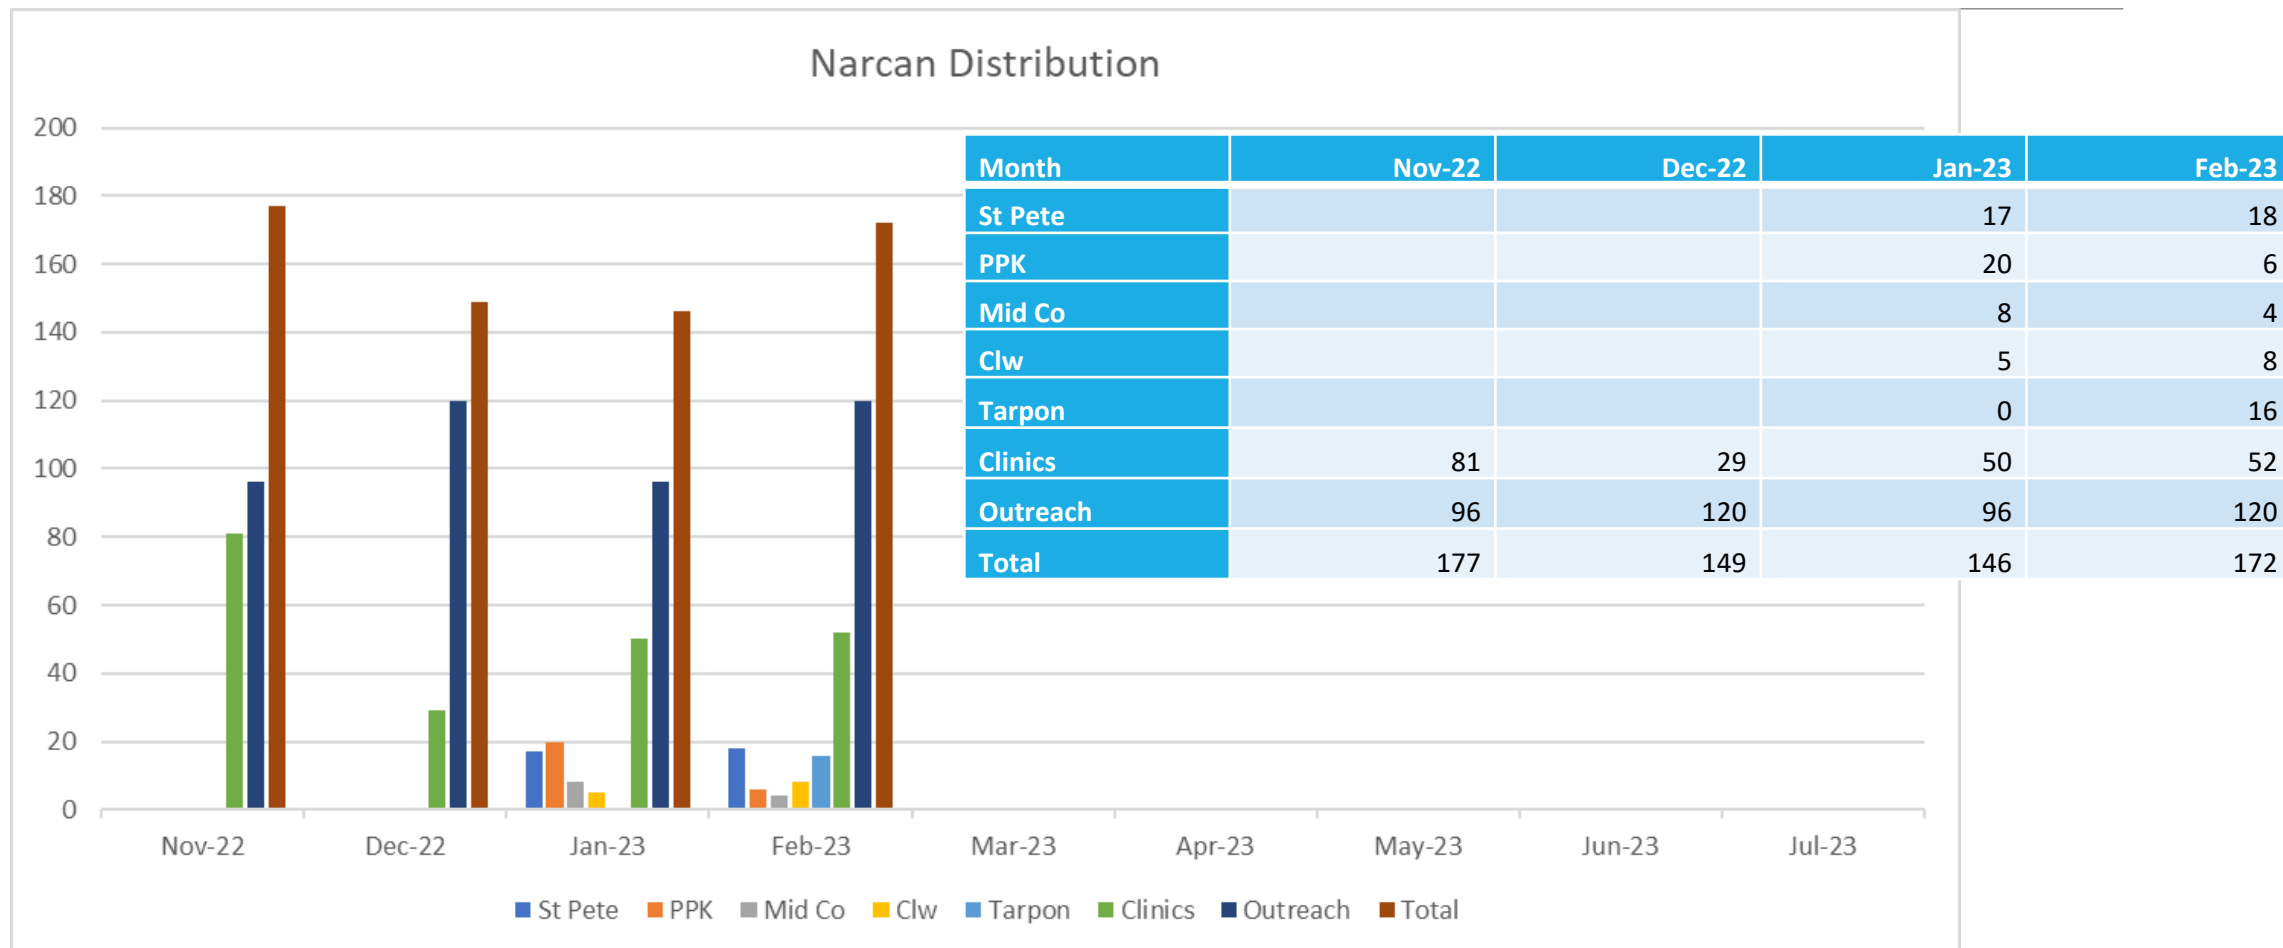

Office of Overdose Prevention Update

Marianne Dean, MS

Program Manager

Florida Department of Health in
Pinellas County

CHD Naloxone Distribution

Update – General

- Coordinated Opioid Response (COPRe) funding will be extended through 09/30/2023 – DCF will take over program
 - Program assists with weekend prescriber for hospital bridge in collaboration with Operation PAR
 - Thank you to Operation PAR for your continued partnership
- OOP lead outreaches
 - 07 for 2023
 - 39 total in 2022 (goal 25)

Spring Break Naloxone Initiative

- Thank you to **IDEA Exchange Pinellas, Recovery Epicenter Foundation, and Florida Harm Reduction Collective** for leading this event
- “Operation Spring Break 2023”
- Groups have hit areas along Pinellas County beaches in effort to dispense naloxone
- Initiative is in response to the West Point cadets OD event in 2022

Drug & Alcohol Facts Week

- Thank you to **Brooke Smith & Lisa DePaolo** from **Pinellas County Schools Prevention Program** for allowing DOH to partner in your D&AFW event
- Students are creating posters for D&AFW awareness in their clubs for their fellow peers to observe and enjoy
- All students who participate in this event will be acknowledged for their contributions by the Office of Overdose Prevention

Task Force Partner Training Opportunity

- CPR / Stop the Bleed / Naloxone training by Claire Hightower
 - BS in Biochemistry & Molecular Biology (May 2023)
 - AHA certified
 - Rhode Island Emergency Medical Technician
- Grant Recipient
 - This is NO-COST to anyone looking for refresher training (no certification provided).
 - Recommended for those who never taken a Stop the Bleed training, or need a refresher.
 - Recommend for individuals in-between CPR certifications who may want a general refresher.
 - Training is available June 01 – July 31.
 - Contact: **claire_hightower@brown.edu** to schedule

Gap Analysis Survey

PCOTF Gap Analysis

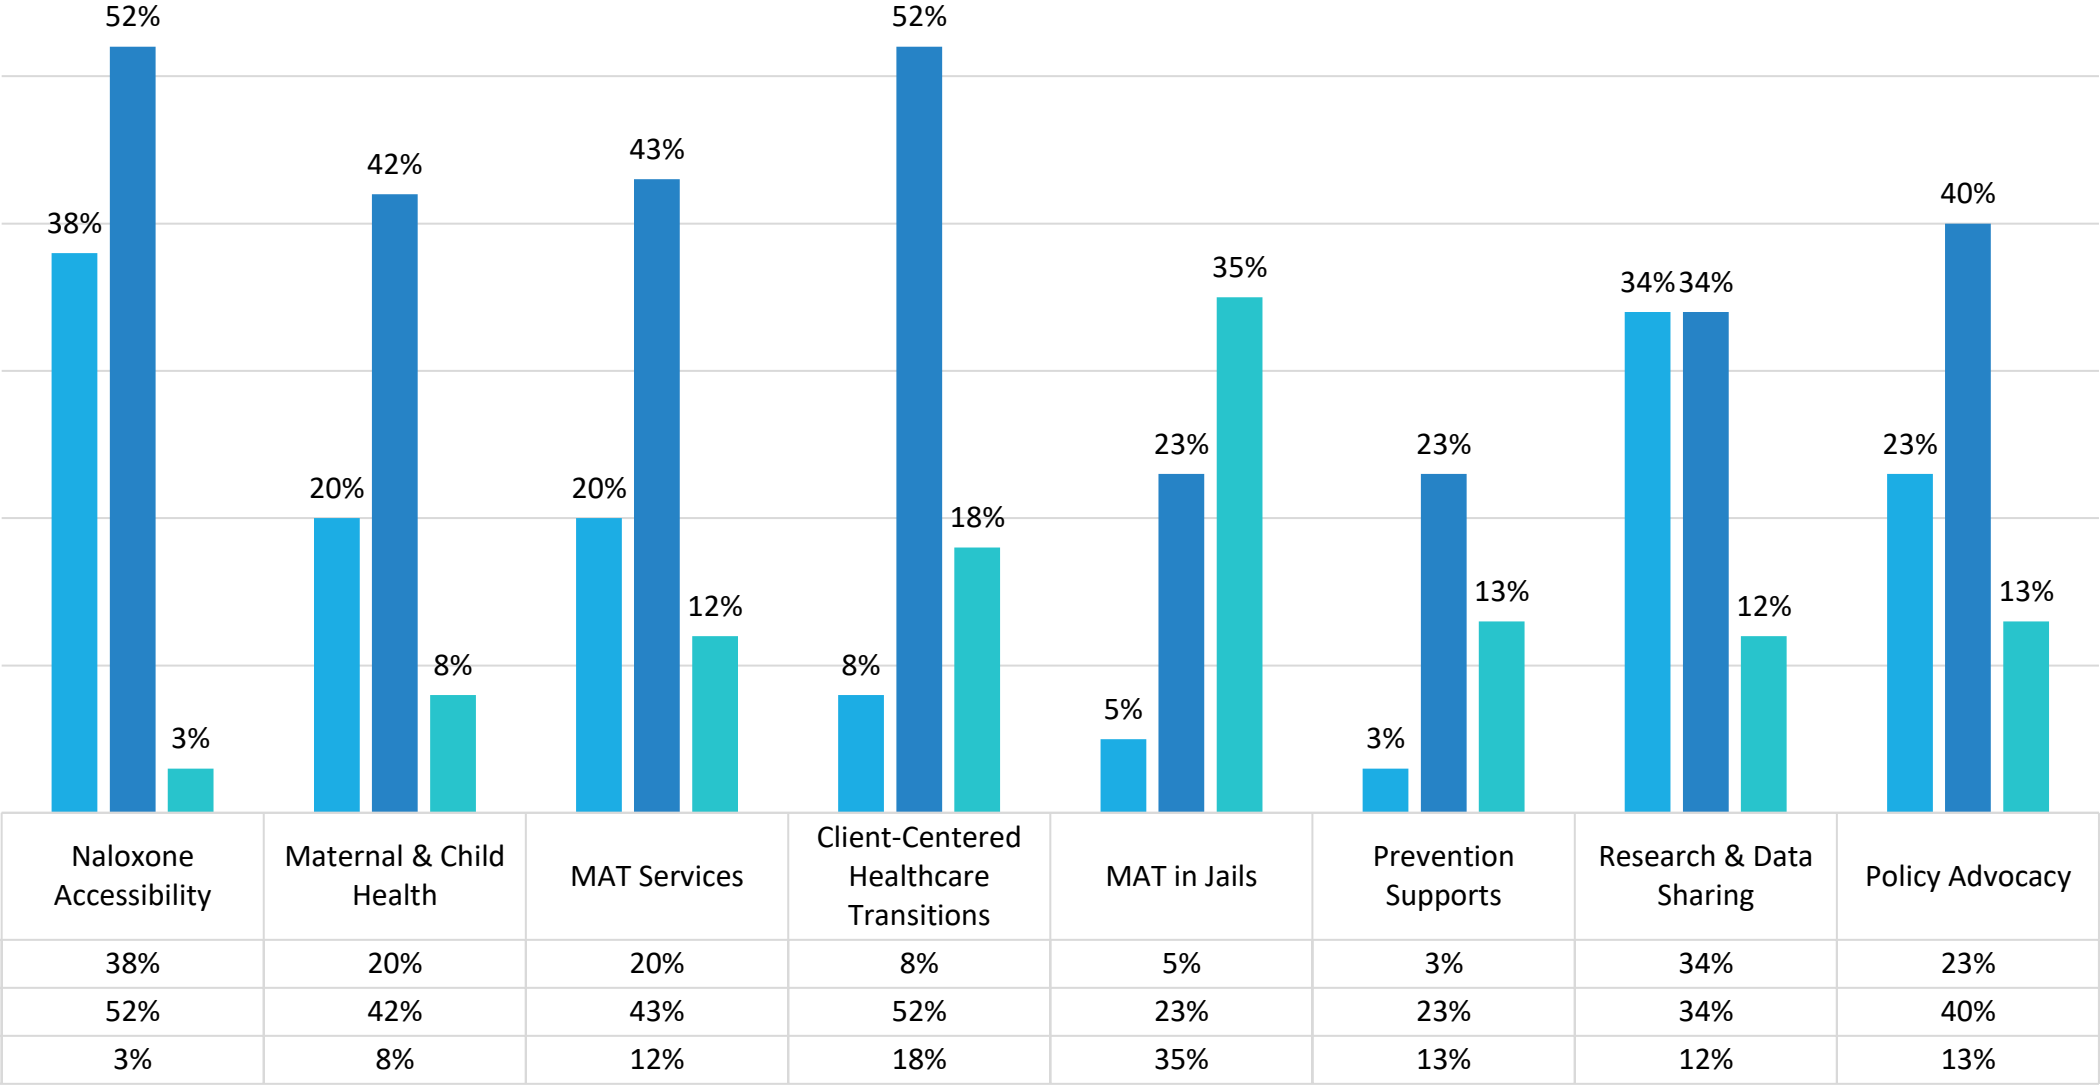

- A strategic plan gap analysis survey was administered to the task force February 2023 and data collected March 02, 2023
- 60 respondents out of 215 task force members (28% response)

PCOTF Gap Analysis

- Priority areas of best practices were selected with the use of the Florida Opioid Allocation and Statewide Agreement (See Exhibits A & B)
- A list of these remediation uses can be found at [Florida – National Opioids Settlement \(nationalopioidsettlement.com\)](https://nationalopioidsettlement.com)

Schedule A Categories

Open Forum

- ❖ Please use this time to engage our task force members
- ❖ Any questions not addressed online will be answered to the best of our ability and an email response will be provided.

To Conclude

We welcome questions about any of the topics you heard today.

Please direct questions to Marianne @ marianne.dean@flhealth.gov

**A copy of this presentation, including meeting notes, will
be provided next week.**

Please make sure to add my email to your SAFE list.
